

OVERVIEW

LIFE LANDSCAPES adds value to property (commercial or residential) by applying a focused approach to each unique landscape and ensuring service delivery according to specific installation and maintenance requirements. Award-winning projects incorporate effective and eco-conscious landscape techniques such as water conservation, green roofs and indigenous planting. Our focus remains on sustainability through climate appropriate and resilient landscaping, always delivering on time, according to specification and beyond expectation.

- Designated smoking area solutions

EMPOWERMENT & SOCIAL RESPONSIBILITY

Life Green Group (Pty) Ltd is fully compliant in terms of the D.T.I's BEE scorecard and currently has a level 4 BEE status.

Life Landscapes, a division of Life Green Group (Pty) Ltd, is fully committed to the principles of empowerment and upliftment, both amongst our own employees and within the larger community. Internally, we steadfastly train our employees through horticultural learnerships, and where necessary, through assistance with tertiary education. We also have a policy of trying to "promote within" wherever possible.

Through the "Partners for Possibilities" programme, endorsed by the MEC for Basic Education, we have been linked with the Moruta

Thuto Primary School, in Meadowlands, Soweto. We provide mentorship to the Principal, infrastructural assistance, such as providing training to parents and staff on growing vegetables which have been used for school lunches, clearing and levelling playing fields, as well as social interaction on Mandela Day and other special events.

We have installed and are maintaining two soccer fields at small community schools near Pecanwood Golf Estate. Where opportunity arises, we provide clearing and/or maintenance services for community schools or projects
